

# Have you considered participating in a clinical study?

If you are living with obesity, then the AMAZE 1 study may be for you. This study investigates the effect of an experimental medicine on weight loss

**You may be eligible to participate in the AMAZE 1 study if you fulfil the following**

- Have a Body Mass Index (BMI)  $\geq 30 \text{ kg/m}^2$
- Are 18 to 69 years old (both inclusive)
- Be able and willing to adhere to study procedures

## What do you need to do?

- Inject the study medicine or placebo with an easy-to-use injection pen once a week
- Attend regular study-related health checks and medical tests incl. having blood samples taken
- Maintain a dosing diary and complete questionnaires using an electronic study device
- Stay connected with the study staff during the study at regularly scheduled visits

**This study is currently looking for participants - for more information please contact:**
